

TATUKGIS Inc. PRODUCT LICENSE AGREEMENT

NOTICE TO USERS: CAREFULLY READ THE FOLLOWING LEGAL AGREEMENT. USE OF THE TATUKGIS SOFTWARE PROVIDED WITH THIS AGREEMENT (THE "SOFTWARE") CONSTITUTES YOUR ACCEPTANCE OF THESE TERMS. IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT INSTALL AND/OR USE THIS SOFTWARE. USER'S USE OF THIS SOFTWARE IS CONDITIONED UPON COMPLIANCE BY USER WITH THE TERMS OF THIS AGREEMENT.

1. LICENSE GRANT. TATUKGIS grants you a license to use one copy of the version of the SOFTWARE on any one system for as many licenses as you purchase, except as modified by the stipulations provided for in this license agreement relating to each SOFTWARE type. "You" means the company, organization, entity, or individual whose funds are used to pay the license fee. "Use" means storing, loading, installing, executing or displaying the SOFTWARE on a user workstation, or as otherwise specified according to SOFTWARE type later in this license agreement. You are expected to use the trial version of the SOFTWARE on your computer system and to thoroughly evaluate its usefulness and functionality before making a purchase. This "try before you buy" approach is the ultimate guarantee that the SOFTWARE will perform to your satisfaction; therefore, you understand and agree that there is no refund policy for any purchase of the SOFTWARE. This license to use this SOFTWARE may not be transferred to any other company, organization, or entity without the prior permission from TatukGIS.

SOFTWARE PRODUCT TYPES:

DEVELOPMENT TOOLKIT: "DEVELOPMENT TOOLKIT" means the "SOFTWARE" of a type that is designed to be used by a person who is a software developer to create custom software applications. A DEVELOPMENT TOOLKIT is licensed on a per developer basis, with one license per each developer. Only the individual developer to whom a DEVELOPMENT TOOLKIT license is registered may access, install on a computer, or otherwise use in any way the retail version of the DEVELOPMENT TOOLKIT. You must provide registration information to TatukGIS which clearly identifies the developer to whom each purchased license is assigned for use. In the event that you wish to transfer the DEVELOPMENT TOOLKIT license to a different developer in your organization, you must promptly notify TATUKGIS of the transfer and register the new developer with TatukGIS.

You may deploy (install) any compiled final user applications created from the DEVELOPMENT TOOLKIT to final user workstations, free of any royalty charges, provided that the two following conditions are both true:

- i) The application does not expose the TatukGIS API (application program interface), methods, classes, functions, or properties (such as in the meaning of scripting functionality), and
- ii) The application is not competitive to the TatukGIS Editor product. (The TatukGIS Editor is an END USER APPLICATION produced and marketed by TatukGIS). For purposes of clarification, competitive is defined the marketing and/or distribution of a product to the general GIS software user market which, in the judgment of TatukGIS, contains a significant set of the features found in the TatukGIS Editor which makes the application compete with the TatukGIS Editor for market share. This includes applications that are provided without charge.

If you are unsure whether your application is in compliance with the above two conditions, contact TatukGIS with the specific details of your situation and ask for clarification. Any use of the DEVELOPMENT TOOLKIT to create an application which is an exception to either of above two conditions requires the explicit permission, in written form, from TatukGIS and may be subject to TatukGIS royalties.

Any final user application created using the DEVELOPMENT TOOLKIT must include the text "This product was developed using the TatukGIS Developer Kernel" either in i) the application's About box or ii) in the area of the product documentation where appears any other copyright statements relating to 3rd party software used to create the application.

You are allowed to deploy an application created from the DEVELOPMENT TOOLKIT to any kind of server situation (to provide data over the internet or any kind of network or multi-user environment) ONLY if a Server Deployment License for the DEVELOPMENT TOOLKIT has been purchased from TatukGIS. One Server Deployment License must be purchased for each server computer to which the application or solution is deployed. For purposes of clarification, a Server Deployment License is required for each deployment to a server computer regardless of whether the deployment is performed within the organization that has licensed the DEVELOPMENT TOOLKIT or to a server of another organization and regardless of whether the server deployment is for production, back-up, marketing, or other purposes.

You may not disable any licensing, security, or control features of the DEVELOPMENT TOOLKIT software. Unless a license to access and use the source code for the DEVELOPMENT TOOLKIT was purchased from TatukGIS, you

may not modify the DEVELOPMENT TOOLKIT except as an intended part of the DEVELOPMENT TOOLKIT programming features. You may not recompile, distribute, disseminate, resell, rent, lease, or share the DEVELOPMENT TOOLKIT software or components or libraries of the DEVELOPMENT TOOLKIT with other companies, organizations, entities, or individuals without the prior written agreement from TatukGIS, except as a compiled end user application created from the DEVELOPMENT TOOLKIT.

If a license to access and use DEVELOPMENT TOOLKIT source code has been purchased from TatukGIS, you are allowed to share modifications made to the DEVELOPMENT TOOL source code only with other members of your company or organization who are also licensed to access and use the same source code version of DEVELOPMENT TOOLKIT.

SERVER PRODUCT: "SERVER PRODUCT" means the SOFTWARE of a type that is designed to function as a server and thereby provide data over the internet or any kind of network or multi-user environment. The SERVER PRODUCT is licensed on a per server basis, requiring the purchase of one license per each installation on a server computer of the SERVER PRODUCT or any solution or application created from or using the SERVER PRODUCT. One license must be purchased for each server installation, regardless of whether the server installation is for the purpose of development, production, marketing, back-up, or other purposes.

You may not modify the SERVER PRODUCT or disable any licensing, control, security, or copyright features of the SERVER PRODUCT except as an intended part of the SERVER PRODUCT programming features or user interface. You may not deploy, distribute, resell, lease, rent, share, or otherwise disseminate the SOFTWARE to other companies, organizations, entities, or individuals without the prior permission from TatukGIS, unless the deployment, distribution, or dissemination is covered by the purchase of a SERVER PRODUCT license.

END USER APPLICATION: "END USER APPLICATION" means the SOFTWARE of a type that is designed to be used on a workstation computer by a final user to perform a function or type of work. Each license of an END USER APPLICATION grants the right to install and run the END USER APPLICATION on a single computer for use by a single person at any one time.

You may not modify the END USER APPLICATION or disable any licensing, control, security, or copyright features of the END USER APPLICATION except as an intended part of the END USER APPLICATION's user features. You may not deploy, distribute, resell, rent, lease, share or otherwise disseminate the SOFTWARE to other companies, organizations, entities, or individuals, except when covered by the purchase of the appropriate number of user license(s).

EVALUATION VERSION: "EVALUATION VERSION" means the SOFTWARE that is provided for the purpose of learning about the SOFTWARE in order to make an informed decision whether or not to purchase a license to use SOFTWARE. You are granted an evaluation period of not more than 30 days to use the EVALUATION VERSION, after which time you must either pay for the SOFTWARE according to the terms and prices provided by TatukGIS or remove the EVALUATION VERSION from your computer system. An EVALUATION VERSION may not be used for any commercial purposes. You may install and use the FREE PRODUCT as it is designed, for commercial or non commercial purposes, with no limit on the time of use. You may also post, redistribute, copy, and share the FREE PRODUCT without limitations, provided that i) the original TatukGIS copyright and logo information on the product's user interface and in the About box remains unchanged and ii) you do not charge for any such redistribution of the FREE PRODUCT other than the possibly of a nominal fee to compensate for the cost of the distribution media.

You may not modify the FREE PRODUCT or disable any licensing, control, security, or copyright features of the SOFTWARE except as an intended part of the FREE PRODUCT's user interface. You may not misrepresent the ownership of the FREE PRODUCT.
